

About Wateree Realty

What gives meaning to your life? If you're like us, we bet the things that mean most to your life are the people you spend your time with. Between family and friends, it's the time we share with others that provides the greatest satisfaction. And that's true in both our personal and business lives.

Since the very beginning, our philosophy has been this: we're all about people. We love lake living; we love our local culture and community; and, we love our clients. It's important to us to not only make the home buying or selling process as painless as possible, but also to make it a personal, reassuring, and friendly experience.

Our clients are never just a number to us. In fact, we purposely limit the number of listings we manage to ensure our clients receive the level of attention they deserve. We've also been known to financially sacrifice to put together the deal that works in our client's best interest.

Wateree Realty has been in business since 1998. Owned and managed by Steve and Gloria Baker, it has a staff of experienced, knowledgeable, and friendly agents. Our clients are our friends and neighbors, and we hope that perhaps you'll become a friend and neighbor too.
